Safety Information

Please carefully read the items below:

Use Safely

Do not use the tablet in situations where it might cause danger.

Transportation Safety

Please observe all transportation laws and regulations.

Please drive with both hands on the wheel.

Hospitals

Please follow limitations.

Please turn off your mobile tablet when near medical instruments.

Airports

Remember to follow all airport and flight safety regulations.

Please do not use your tablet during flight.

Toxic Chemicals

Do not use your mobile tablet around fuels or chemicals.

Hazard

Do not use in hazardous areas where explosions may occur.

Accessories and Batteries

Use only Blu authorized batteries and accessories.

Backup

Remember to keep a written record of all important information.

Water

Your tablet is not waterproof. Keep it away from water and liquids.

SOS Emergency Calls

Make sure your mobile tablet is switched on and in a service area. In home screen, tap the tablet key and dial 911 and send.

Appearance and Key Function

Introduction

Installation of the SIM Cards

Note: Please keep the SIM card out of the reach of children. The SIM card and its contacts are easily damaged due to scratching or bending. Please be cautious when carrying, installing or taking out the SIM cards. ***SIM:*** *Contact your cellular tablet service provider directly to obtain the SIM card.*

To insert SIM cards:

1. Remove the card cover. Insert the SIM card(s).
2. Insert the SD card. (*For additional storage capacity*)
3. Replace the card cover of the tablet and power on.

Power On and Off

On - Please ensure the SIM card has been properly inserted into the tablet. Long press the Power key to switch on the tablet.

Off - In standby mode, long press on Power key until an options menu appears. Select Power Off in the menu and confirm

Security

You may set a security lock feature as a security measure for the tablet. For further information regarding password locks, password revision and other functions please enter into the security option in system settings.

When you initially power on your tablet, there will be a series of steps to set up basic features.

INSERT SIM

Insert your SIM card so the tablet can register to the network.

SELECT LANGUAGE

While on the Welcome screen, please scroll to select your language.

SELECT WI-FI

This process allows the device to connect to the internet. Click on the desired Wi-Fi network that the device that will be connected. Please note that any unsecured Wi-Fi networks can be connected to without credentials and any secured Wi-Fi networks require a password for credentials prior to connection. It is recommended that you connect to a Wi-Fi network to check for software updates prior to startup.

ADD YOUR ACCOUNT

Sign in to your Google™ account in order to keep accounts streamlined with Google services. Your Gmail™ account will be used for some Google programs that include Google Play™ Store, Google Drive™, Google +™ and Google Wallet™. If you do not have a Google account, click to create a new account.

GOOGLE SERVICES

Click to add or remove Google services that include Backup, Location Service, and Google Now™. In this step, you can also setup payment info if desired.

RESTORE APPS & DATA

You can restore your previous applications and data that was stored from another device. You also have the option to setup the tablet as a brand new device.

Call Functions

At the dial keyboard, enter the tablet number and then click the dial key. If dialing an extension, you may click the dial pad icon in the bottom of the screen to open the interface and enter the number of the extension. You may also press and hold the 0 key to add a (+) sign when adding an international dialing prefix.

history

Every teletablet number called and received will be saved in the history. All numbers in the

history can be dialed directly by clicking the CALL BACK on the screen. When the number appears on the list, click it to view details.

Call Options

There are different options that can be used in the history and dialing interface. You may press the MORE while in the dial interface and adjust speed dial and call settings. In the dialing interface, you may press the search button to browse through contacts list or set default contact resources.

Contacts

Enter: Click on the applications menu and select contacts.

- The default display is the tablet contacts and SIM card contacts.
- The contacts are organized alphabetically by default.

Add Contact

Click the Search icon to enter the contact search interface.

- Any numbers or letters associated with any of the

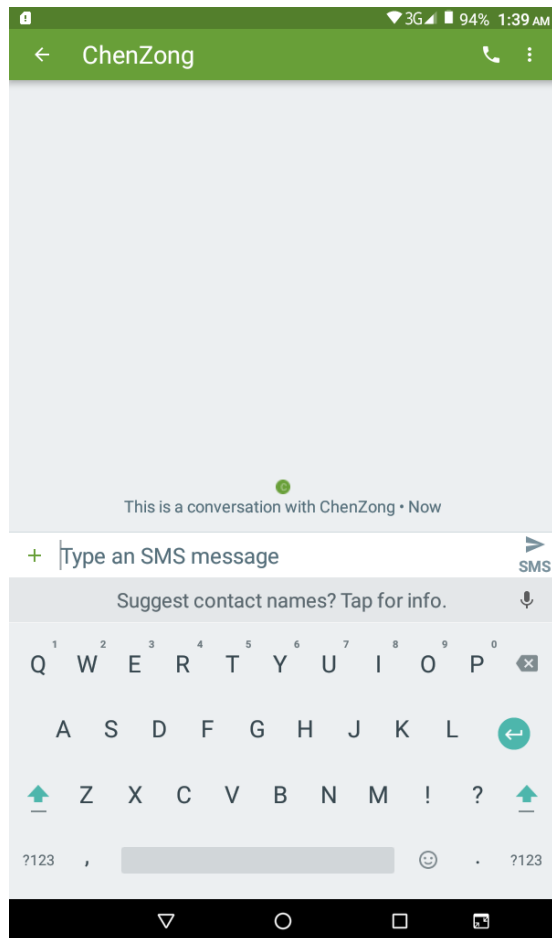

contacts

- saved in the list will be shown in the search results.

Add New Contact

1. Click the add contact icon (+) to add contact.
2. Select to save your contacts to the Google account, appstore or exchange.
3. You may enter different contact details which include adding a picture, name, teletablet number, group, address, and email among other options.
4. Click to finish and save contact.

when adding an attachment.

Messages

You may use this function to exchange text messages and multimedia messages with your family and friends. The messages to and from the same contact or tablet number will be saved into a single conversation so you may see the entire message history conveniently.

Send an SMS

Application Menu » Messenger» New message (or shortcut icon)

1. Click to enter recipient (You may enter contacts from contact book or enter a new number)
2. Compose Message
3. Send

Send an MMS

When creating message, the default message style is SMS. The message will automatically convert to MMS

-
1. Click the attachment icon in the messaging interface.
 2. Click to add attachments and create an MMS message.

Downloads

The download section of the tablet keeps sorted all of the files that have been downloaded on the tablet. The section can display the download by date or by size. To clear the file from the list, click on the box to the left of the file and then select the delete icon.

Internet Browser

Menu Functions

Backward

- After browsing through multiple pages, this option will return the user to the previous page.

Forward

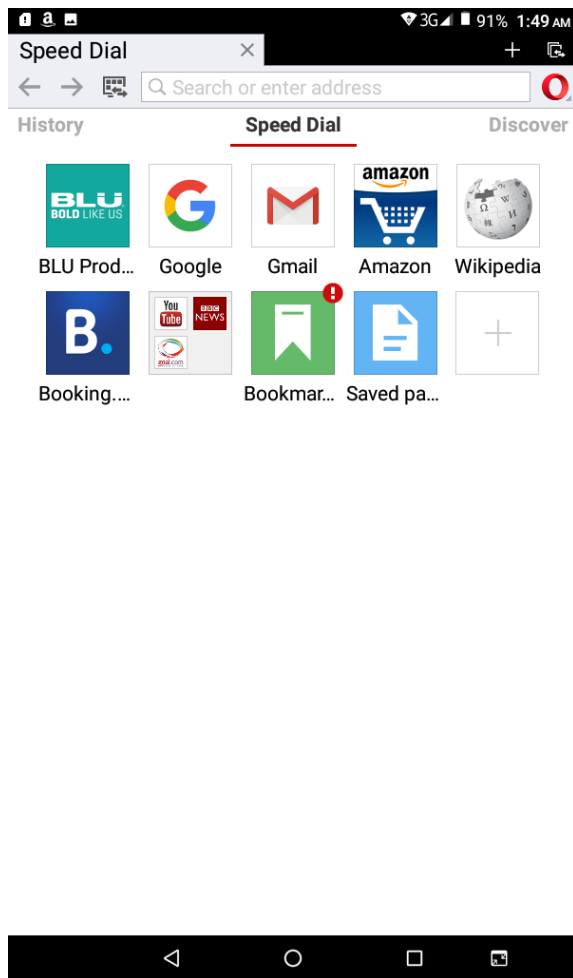

- After browsing through multiple pages, this option will move to a web page after the current page.

Windows

- You may view all windows open by clicking the windows icon in the upper right part of the browser.

Bookmarks

- Click the save to Bookmarks option to make the current URL as a saved Bookmark.
- Click Bookmarks/History to opened saved bookmarks.

Find on page: Search current page.

Share page: Select to share the current page.

Save for offline reading: Saves page for offline reading.

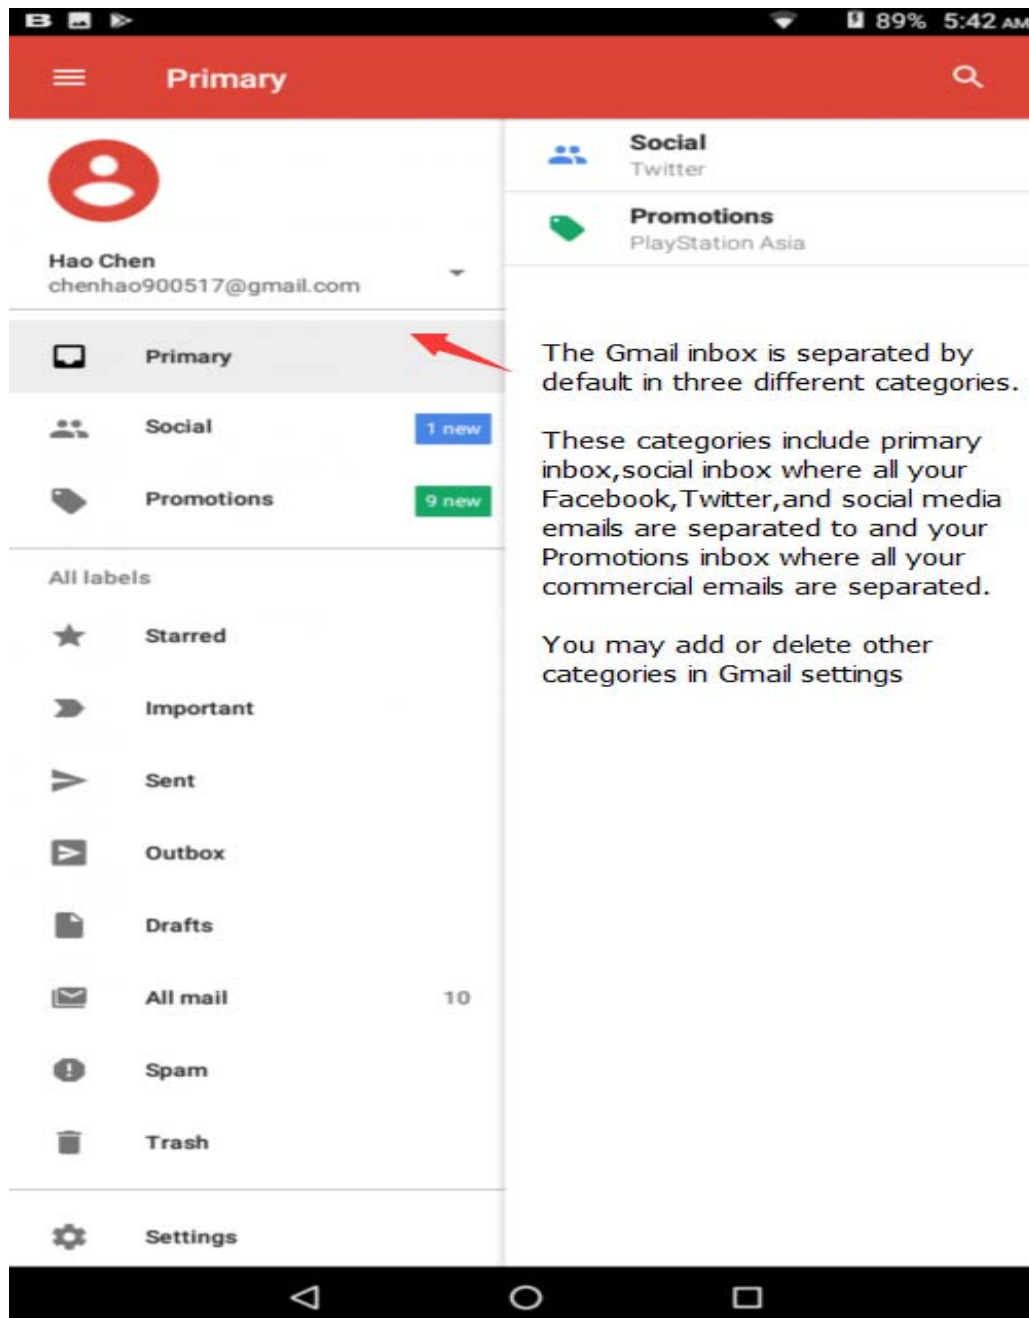

Bookmarks/History: Show your browsing history and view the most visited pages.

Settings: Contains a variety of browser settings.

Gmail

Gmail is Google's free email service. To access the Gmail program, click the applications menu and click on the Gmail icon and either sign in with your existing account or create a new one.

Note: In order to keep accounts streamlined with Google services, your Gmail account user name and password will be used for some Google programs which include: Google Play Store, Google Drive, Google +, Google Photos, and Google Wallet.

The Gmail inbox is separated by default in three different categories.

These categories include primary inbox, social inbox where all your Facebook, Twitter, and social media emails are separated to and your Promotions inbox where all your commercial emails are separated.

You may add or delete other categories in Gmail settings

Play Music

Open Music

Application Menu » Play Music

Search Music

You may choose to search for music from media folder through artist name, song name, album name. The following formats are available: AMR, MP3, and WAV.

Bluetooth & Wi-Fi

Bluetooth is a short-range wireless communications technology that devices can use to exchange information and connect to different types of devices which include headsets and other devices.

Power on Bluetooth

- 1) Settings » Bluetooth and select to power on Bluetooth.
- 2) The Bluetooth icon will appear in the notification bar and the tablet will start to scan for all devices within range

Or click “refresh”.

- 3) In Bluetooth settings all the devices found will displayed in the list under the icon.

Note: *The maximum detecting time of the tablet is 2 minutes.*

Power on Wi-Fi

- 1) Settings » Wi-Fi and select ON to power on Wi-Fi
- 2) Click on the desired Wi-Fi network to be connected.
Unsecured networks can be connected to directly - secured networks require a password or credentials prior to connection.

Camera

Camera

Prior to use: Insert SD card before using the camera or video camera. All photos or videos taken by the tablet are typically stored in the memory card for large storage capacity of images.

Open Camera

1. Applications Menu » Camera
2. Switch to video mode if you want to record videos.

Note: *You may place a camera shortcut icon on any of the screens*

You may adjust various settings for the camera by pressing Setting menu while in the camera interface. When in the camera viewfinder mode, you can switch to google photos or Gallery.

Picture modes

**Select between Camera &
Video**

Sound Recorder

The Sound Recorder can record voice or any audio.

You may send any recorded audio via Bluetooth or MMS and also have the option to make any recorded audio the tablets default ring tone.

The recorder uses 3GPP and OGG format.

Record

- Keep the tablet's microtablet near the voice source.
- Click the record button to record the audio.
- Click the stop button to stop recording the audio.

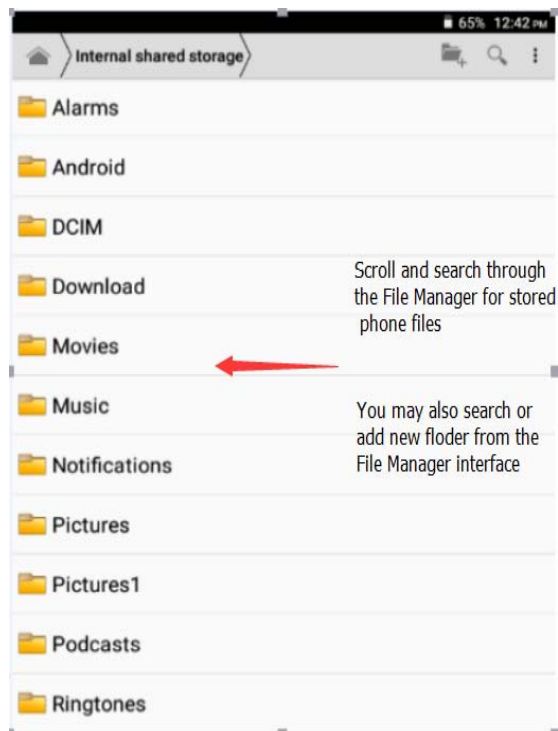

All recordings will be saved in the recording folder in the default music program and can be accessed from the sound recorder application.

Recording Time

Recording Controls

File Manager

The file manager allows you to search and organize your stored tablet files conveniently and efficiently through one program.

Calendar

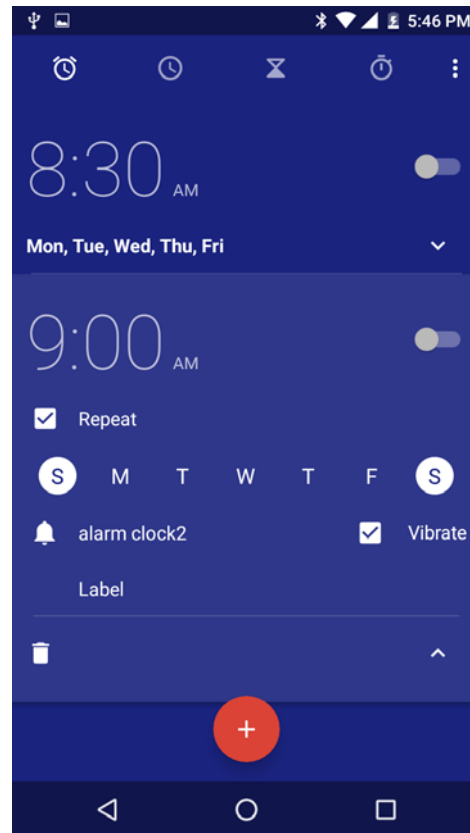

The calendar helps keep track of your life's most important moments in one application.

Press the specific day
or hour you wish to
enter a new event to

Alarm Clock

1. Click on the Clock icon in the application menu
2. Click set alarm button and enter the alarm clock set interface where you may delete and edit alarms

Click to edit alarms

Click to delete alarms
Click to add alarms

FM Radio

FM Radio

Through this function, you may listen to FM radio on the device. The FM radio uses the wired headtablets as an antenna in order to receive signal. Before using this function, connect the original equipment headtablets that came with the tablet.

Open FM radio

Press the FM Radio icon to open the application.

1. Click “Search” automatic scans of FM channels.
2. Click to add favorite radio stations.

FM Radio as Background

Click on the Home key to move the FM Radio to the background.

Play Store

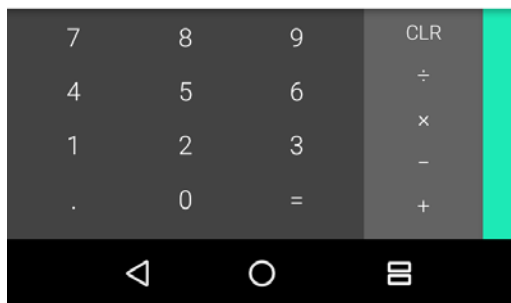

Google Play allows you to download music, movies, and even games. Click the Play icon to sign in with your Google account.

Search and select between different Play Store categories

Multiwindow

231

Blu now supports viewing two apps at the same time even on tablets.

A long-press on the multitasking button will shrink down the app you are currently using, and give you the option to pick from another app that's open in the background. Alternatively, press the home button to pick an app from the home screen or app drawer. Adjust the size of each app by dragging the handle in the middle of the screen.

Quick Settings toggle

Slide down the notification shade and you will find nine settings icons at the top of the screen. Tap on the icon to toggle the current status of the setting, or long-press on it for more options.

Settings

Wi-Fi

- **Settings » Wi-Fi** to power on. When on, the Wi-Fi will automatically search for available networks. Any unsecured network can be used directly and any secured network requires a password or credentials prior to connection.

Bluetooth

- Press the switch to power on Bluetooth. Once on, the Bluetooth will automatically scan for any nearby open equipment.

SIM cards

- Press the switch to power on SIM cards. When insert two cards, click to set cellular data、calls、SMS messages

Data Usage

- Mobile and Wi-Fi Data Usage

More

- Tethering, Portable Hotspot, VPN, APN
- Airplane Mode

Note: *When in flight mode, all network connections will turn off automatically.*

Display

Brightness, Auto rotating screen, Wallpaper, Screen Timeout

Sound & notification

This option sets the tablet tone settings for receiving calls and notifications. Some of the settings include:

- Vibrate, volume, ring tones, ring tones notification, dial touchpad, and haptic feedback and tones

Storage

- View the tablet memory usage and SD card usage.

Battery

- General power usage

Apps

- Manage applications - Manage and delete installed applications.

Location

- Mobile Network Location - Use wireless services to find locations in applications.
- When using the GPS, power on to set satellite positioning for accuracy.

Security

Set up screen locks: Use slide, face/voice unlock, pattern, PIN or password to lock the screen. And Set up fingerprint to lock the screen.

- Pattern: The first time there will be simple unlock instructions and examples. Click “next step” to continue the security pattern step.
- PIN: Enter PIN number to unlock the screen.
- Password: Use password to unlock the screen
- Fingerprint: Use fingerprint to unlock the screen

You may stop the security feature at any time.

Set up SIM card PIN lock

-
- SIM card PIN (Personal Identification Number) is used to prevent unauthorized use of SIM card.

To change a blocked PIN code, you will need to unlock the SIM lock then go to the Change Password screen. The tablet will automatically prompt you enter the old PIN code and ask to enter a new PIN code twice. The tablet will then prompt you that the change was successful. If you enter the PIN incorrectly three times, the SIM and PIN codes will be automatically locked. You will need the PUK code to unlock the tablet which is available through your service provider. If you enter the PUK code incorrectly 10 times, the SIM card will be permanently locked. Please see your service provider for a new SIM card.

- Password visible – Make the password visible when it's typed.
- Use security credentials - Allow applications to visit security credentials or other credentials.

Accounts

- Add accounts,include Exchange、 Google、 IMAP、 Personal(IMAP)、 Personal(POP3)、 POP3

Google

This menu contains: Location、 Security、 Set up nearby device、 Restore contacts、 Ads、 Google Cast、 Nearby、 Search function.

Language and Input

- Language – Change the language of the tablet.
- Custom Dictionary - Add or delete words to the custom dictionary.
- Keyboard Settings – Haptic vibration, Haptic tones, Capitalizing, Speech Input, Inputting words, Predictive text function, Auto-Text, Input keyboard method

Date & Time

- Date and Time adjustment.
- Time Zone - Select Time Zone according to where your location.
- Select Date Format - There are 7 kinds of formats.

Schedule Power On & Off

- Schedule power on and off

Accessibility

- Power button ends call and auto rotate screen
- Speak Passwords and large text

Printing

Need to download the "CloudPrint.apk" from the Internet and install.

Developer options

- Click Build number 5 times constantly to open Developer options.
- Running services - Press the 'Stop' button to stop any of the services listed and removes from the running services list.

About device

- Tablet information status and firmware updates

Storage

Connect the tablet with the USB cable provided. Once connected, a connection interface will appear. In the connection mode interface, select MTP and turn on from the connection screen to be able to transfer files. Other storage options are also available.

Some system settings, hardware, and UI options may vary depending on final version.

Regulatory Information

FCC Rules Compliance

(United States Federal Communications Commission)

This mobile tablet complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This mobile tablet has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation if this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user, is encouraged to try to correct the interference by one or more of the following measures:

-
- Reorient or relocate the receiving antenna.
 - Increase the separation between the equipment and receiver.
 - Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
 - Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. The antenna(s) used for this transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

RF Exposure Information (SAR)

This mobile tablet meets the government's requirements for exposure to radio waves.

This tablet is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the U.S. Government.

The exposure standard for wireless mobile tablets employs a unit of measurement known

as the Specific Absorption Rate, or SAR. The SAR limit set by the FCC is 1.6W/kg - Tests for SAR are conducted using standard operating positions accepted by the FCC with the tablet transmitting at its highest certified power level in all tested frequency bands. Although the SAR is determined at the highest certified power level, the actual SAR level of the tablet while operating can be well below the maximum value. This is because the tablet is designed to operate at multiple power levels so as to use only the power required to reach the network.

The highest SAR value for the model tablet as reported to the FCC when tested for use at the ear is 0.53 W/kg and when worn on the body, as described in this user guide, is 1.44W/kg (*Body-worn measurements differ among tablet models, depending upon available accessories and FCC requirements.*) While there may be differences between the SAR levels of various tablets and at various positions, they all meet the government requirement.

The FCC has granted an Equipment Authorization for this model tablet with all reported SAR levels evaluated as in compliance with the FCC RF exposure guidelines.

SAR information on this model tablet is on file with the FCC and can be found under the Display Grant section www.fcc.gov/oet/ea/fccid after searching -

FCC ID: YHLBLUTBM7PRO.
