ATTENTION

○ For instructions or any questions pertaining to phone usage, please click on the BLU Help icon on the home screen of the phone. Also included in BLU Help is a product registration link and technical support. You may also access the BLU help page by visiting the following address: manuals.bluproducts.com.

○ Para obtener instrucciones o preguntas relacionadas con el uso del teléfono, por favor haga clic en el icono de BLU Help en la pantalla principal del teléfono. También se incluye en BLU Help un enlace para registro del producto y soporte técnico. Usted también puede acceder la página de BLU Help visitando la siguiente dirección: manuals.bluproducts.com

○ Para obter instruções ou perguntas relacionadas ao uso do telefone, por favor, clique no ícone BLU Help na tela principal do telefone. Também incluído no BLU Help um link para registrar o produto e suporte técnico. Você também pode acessar a página de BLU Help visitando o seguinte endereço: manuals.bluproducts.com

○ Pour des instructions ou pour toutes questions sur l'utilisation du téléphone, veuillez cliquer sur l'icône Aide BLU sur l'écran d'accueil du téléphone. L'Aide BLU comprend un lien pour enregistrer le produit et pour le soutien technique. Vous pouvez aussi accéder à la page aide BLU en visitant l'adresse suivante: manuals.bluproducts.com

SAFETY INFORMATION

Transportation Safety

Please observe all transportation laws and regulations.

<p style="text-align:center; color:red">PLEASE DRIVE RESPONSIBLY - DO NOT TEXT & DRIVE</p>

Hospital Safety

Please follow hospital rules and limitations.

Please turn off your mobile phone when near medical instruments.

Airport Safety

Remember to follow all airport and flight safety regulations.

Water Hazard

Your phone is not waterproof. Keep your phone away from water or liquid to avoid damage.

Emergency Calls

Make sure your mobile phone is switched on and in a service area. In home screen, tap the phone key and dial the emergency number.

Battery Usage

For better performance and longer battery life, it is recommended that you charge the battery fully before using the mobile phone for the first time and that you initially complete two to three charge cycles.

INTRODUCTION

Installation of the SIM Card

Warning: Please keep the SIM card out of the reach of children. The SIM card and its contact are easily damaged due to scratching or bending. Please use caution when carrying, installing, or taking out the SIM card. **Note:** Please contact your cellular phone service provider directly to obtain your SIM card.

To insert SIM card:

1. Remove the battery cover. Insert the SIM card in its appropriate slot.
2. Insert the SD card (For additional storage capacity).

SIM Slot — **Memory Card Slot**

3. Insert battery, replace the battery cover, and power on the phone.

ON - Please ensure the SIM card has been properly inserted into the phone. Long press the Power key to switch on the phone on.

OFF - In standby mode, long press on Power key until an options menu appears. Select POWER OFF in the menu and confirm power off in the pop-up menu to switch off the phone.

INSERT SIM

Insert your SIM card so the phone can register to the network.

SELECT LANGUAGE

While on the Welcome screen, please scroll to select your language. Once you have made your selection, click to continue to the next step.

DATE & TIME SETTINGS

Date and Time settings are set to be received automatically from your service provider. You may change these settings manually desired.

MANAGE SIM

This process allows SIM card configuration as well as importing contacts from the SIM.

SELECT WI-FI

This process allows the device to connect to the internet. Click on the desired Wi-Fi network that the device will be connecting to. Please note that any unsecured Wi-Fi networks can be connected to directly and any secured Wi-Fi networks require a password for credentials prior to connection. It is recommended that you connect to a Wi-Fi network to check for software updates.

FCC Regulations:

This mobile phone complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This mobile phone has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiated radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-Reorient or relocate the receiving antenna.
-Increase the separation between the equipment and receiver.
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.

FCC Note:
Caution: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

RF Exposure Information (SAR)

This phone is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the United States.

During SAR testing, this device was set to transmit at its highest certified power level in all tested frequency bands, and placed in positions that simulate RF exposure in usage against the head with no separation, and near the body with the separation of 10 mm. Although the SAR is determined at the highest certified power level, the actual SAR level of the device while operating can be well below the maximum value. This is because the phone is designed to operate at multiple power levels so as to use only the power required to reach the network. In general, the closer you are to a wireless base station antenna, the lower the power output.

The exposure standard for wireless devices employing a unit of measurement is known as the Specific Absorption Rate, or SAR.
The SAR limit set by the FCC is 1.6W/kg.

This device is complied with SAR for general population /uncontrolled exposure limits in ANSI/IEEE C95.1-1992 and had been tested in accordance with the measurement methods and procedures specified in IEEE1528.

The FCC has granted an Equipment Authorization for this model phone with all reported SAR levels evaluated as in compliance with the FCC RF exposure guidelines. SAR information on this model phone is on file with the FCC and can be found under the Display Grant section of www.fcc.gov/oet/ea/fccid after searching on FCC ID: YHLBLUDASHJ.

For this device, the highest reported SAR value for usage against the head is 0.74 W/kg, for usage near the body is 1.43 W/kg.

While there may be differences between the SAR levels of various phones and at various positions, they all meet the government requirements.

SAR compliance for body-worn operation is based on a separation distance of 10 mm between the unit and the human body. Carry this device at least 10 mm away from your body to ensure RF exposure level compliant or lower to the reported level. To support body-worn operation, choose the belt clips or holsters, which do not contain metallic components, to maintain a separation of 10 mm between this device and your body.
RF exposure compliance with any body-worn accessory, which contains metal, was not tested and certified, and use such body-worn accessory should be avoided.

IC Radiation Exposure Statement

This EUT is compliance with SAR for general population/uncontrolled exposure limits in IC RSS-102 and had been tested in accordance with the measurement methods and procedures specified in IEEE 1528 and IEC 62209. This equipment should be installed and operated with minimum distance 1.0 cm between the radiator and your body. This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter.

Cet appareil est conforme aux limites d'exposition DAS incontrôlée pour la population générale de la norme CNR-102 d'Industrie Canada et a été testé en conformité avec les méthodes de mesure et procédures spécifiées dans IEEE 1528 et IEC 62209. Cet appareil doit être installé et utilisé avec une distance minimale de 1.0 cm entre l'émetteur et votre corps. Cet appareil et sa ou ses antennes ne doivent pas être co-localisés ou fonctionner en conjonction avec tout autre antenne ou transmetteur.

INFORMACIÓN DE SEGURIDAD

Seguridad de Transporte

Por favor siga todas las leyes y regulaciones de transporte.

MANEJE RESPONSABLEMENTE - NO USE MENSAJERIA DE TEXTO CUANDO CONDUCIENDO

Seguridad de Hospitales

Por favor siga todas las leyes y regulaciones de hospital

Por favor, apague su teléfono móvil cuando cerca de instrumentos médicos.

Seguridad de Aeropuertos

Por favor, siga todas las normas de seguridad de vuelo y

Prueba de Agua

El teléfono móvil no es impermeable. Manténgalo alejado de agua o líquidos para evitar daño.

Llamadas de Emergencia SOS

Asegúrese de que su teléfono móvil está encendido y en un área de servicio. En la pantalla de inicio, pulse la tecla del teléfono y marque el número de emergencia.

Uso de batería

Para mejorar el rendimiento y la vida útil de la batería, se recomienda que cargue la batería totalmente antes de utilizar el teléfono móvil por primera vez.

El rendimiento óptimo de una batería nueva se obtiene generalmente después de dos o tres ciclos de carga completos.

Instalación de la Tarjeta SIM

Advertencia: Mantenga la tarjeta SIM fuera del alcance de los niños. El contacto de la tarjeta SIM se daña fácilmente debido al roce o flexión. Por favor tenga cuidado al transportar o instalar la tarjeta SIM.

Nota: Por favor comuníquense con el proveedor de servicio directamente para obtener su tarjeta SIM.

Para insertar la tarjeta SIM:

1. Retire la cubierta de la batería. Inserte la tarjeta SIM en la ranura apropiada.

2. Inserte la tarjeta de memoria (Para capacidad adicional de almacenamiento).

Ranura de la Tarjeta SIM　　　　　　　　　　　　　　　**Ranura de la Tarjeta de Memoria**

3. Inserte la batería, coloque la cubierta de la batería, y encienda el teléfono.

ENCENDER - Asegúrese de que la tarjeta SIM se ha insertado correctamente en el teléfono. Mantenga pulsado el botón de encendido para encender el teléfono.

APAGAR - En el modo de espera, mantenga pulsado el botón de encendido hasta que aparezca un menú de opciones. Seleccione Apagar en el menú y confirme en el menú emergente para apagar el teléfono.

INSERTAR SIM

Inserte su tarjeta SIM para que el teléfono pueda registrarse a la red.

SELECCIONAR IDIOMA

Por favor, haga clic y desplace para elegir su selección de idioma. Una vez que haya hecho su selección, haga clic para continuar al próximo paso.

AJUSTES DE FECHA Y HORA

Configuraciones de fecha y hora están ajustados para recibir automáticamente de su proveedor de servicio. Se puede cambiar estos ajustes manualmente si deseado.

ADMINISTRAR SIM

Este proceso permite la configuración de la tarjeta SIM y también importa contactos desde la SIM.

SELECCIONAR WI-FI

Este paso permite que el dispositivo se conecte a la red de Wi-FI. Haga clic en la red Wi-Fi que desee que el dispositivo se conecte. Por favor, tenga en cuenta que todas las redes sin seguridad pueden conectarse directamente y cualquiera de las redes protegidas requieren una contraseña antes de conexión.

INFORMAÇÕES DE SEGURANÇA

Segurança no Transporte

Observe todas as leis e regulamentos sobre transporte

<p style="color:red; text-align:center;">DIRIJA RESPONSAVELMENTE - NÃO DIGITE DIRIGINDO</p>

Segurança em Hospitais

Sigas as regras e limitações em hospitais

Desligue seu celular perto de instrumentos médicos.

Segurança em Aeroportos

Lembre-se de seguir todas as regras de segurança de vôo e em aeroportos.

Risco de Água

Seu celular não é à prova d'água. Mantenha-o afastado de água ou líquidos.

Ligações de Emergência

Certifique-se de que o celular esteja ligado e em área de cobertura. Na tela inicial, toque na tecla de telefone e digite o número de emergência.

Uso de Bateria

Para melhorar o desempenho e aumentar a vida da bateria, recomenda-se carregar a bateria completamente antes de usar o celular pela primeira vez.

Instalação do Cartão SIM (Chip)

Atenção: Mantenha o cartão SIM fora do alcance de crianças. O cartão SIM e seus contatos são facilmente danificados por arranhões ou empenos. Tenha cuidado ao transportar, instalar ou retirar o cartão SIM. **Nota:** Faça contato com o provedor de serviços do seu celular diretamente, para obter o cartão SIM.

Para inserir o cartão SIM:

1. Retire a tampa da bateria. Insira o cartão SIM no slot apropriado.

2. Insira o cartão SD. (Para Capacidade de Armazenagem Adicional)

Encaixe do SIM

Encaixe do Cartão de Memória

3. Inserir a bateria, recoloque a tampa da bateria, e ligue o celular.

LIGAR – Certifique-seque o CHIP está inserido corretamente no celular. Mantenha pressionada a tecla Liga/Desliga para ligar o celular.

DESLIGAR – No modo inicial, mantenha pressionada a tecla Liga/Desliga até que apareça um menu de opções. Selecione DESLIGAR no menu suspenso, para desligar o celular.

INSERÇÃO SIM

Insira o seu cartão SIM para o telefone para se registar na rede.

SELECIONE O IDIOMA

Por favor, clique no botão de linguagem e escolha seu idioma. Depois de ter feito sua seleção, clique para continuar para a próxima etapa.

CONFIGURACOES DE DATA E HORA

Configurações de data e hora estão definidas para ser recebido automaticamente de seu provedor de serviços. Você pode alterar essas configurações manualmente sim desejada.

GERECIAR SIM

Este processo permite a configuração do cartão SIM e também importar contatos do SIM.

SELECIONAR WI-FI

Esta etapa permite que o aparelho se conecte à rede Wi-Fi. Clique na rede Wi-Fi que você deseja para o aparelho conectar-se. Por favor, note que todas as redes não seguras podem ser conectadas diretamente e qualquer uma das redes protegidas exige uma senha para credenciais antes de conectar.

RENSEIGNEMENTS RELATIFS À LA SÉCURITÉ

Sécurité au volant

Veuillez observer toutes les lois et règles de transport.

VEUILLEZ CONDUIRE DE MANIÈRE RESPONSABLE - NE JAMAIS TEXTER ET CONDUIRE.

Sécurité dans les hôpitaux

Veuillez suivre les règles et limitations des hôpitaux.

Veuillez éteindre votre téléphone mobile si vous êtes près d'appareils médicaux.

Sécurité aéroportuaire

N'oubliez pas de suivre les règles de sécurité des aéroports et de vol.

Risque lié à l'eau

Votre téléphone n'est pas à l'épreuve de l'eau. Garder votre téléphone à l'abri de l'eau ou de tout autre liquide pour éviter des dommages.

Appels d'urgence

S'assurer que votre téléphone mobile est allumé dans une zone de service. Dans l'écran d'accueil, toucher sur la touche téléphone et composer le numéro d'urgence.

Utilisation de la batterie

Pour une meilleure autonomie de la batterie, il est recommandé de charger la batterie complétement avant d'utiliser le téléphone mobile pour la première fois et de compléter deux à trois cycles de recharge.

INTRODUCTION

Installation de la carte SIM

Avertissement: Veuillez garder la carte SIM hors de la portée des enfants. La carte SIM et les contacts sont facilement endommagés par une déformation ou des rayures. Veuillez faire attention lors du transport, de l'installation ou du retrait de la carte SIM. **Note :** Veuillez communiquer directement avec votre fournisseur de service cellulaire pour obtenir votre carte SIM.

Pour insérer la carte SIM:

1. Retirer le couvercle de la batterie. Insérer la carte SIM.

2. Insérer la carte SD (pour une plus grande capacité de stockage).

Fente pour la carte SIM

Fente de la carte mémoire

3. Insérer la batterie, replacer le couvercle de la batterie, et allumer le téléphone.

MISE SOUS TENSION – Vérifiez que la carte SIM est bien dans le téléphone. Appuyez longuement sur la touche Marche/Arrêt pour mettre le téléphone sous tension.

MISE HORS TENSION – En mode veille, appuyez longuement sur la touche Marche/Arrêt jusqu'à l'apparition d'un menu d'options. Choisissez Éteindre dans le menu et confirmez l'arrêt dans la fenêtre contextuelle.

INSÉRER LA SIM

Insérer votre carte SIM pour que le téléphone puisse s'inscrire au réseau.

CHOISIR LA LANGUE

Pendant que vous êtes sur l'écran de bienvenue, défilez pour sélectionner votre langue.

PARAMÈTRES DE DATE & FOIS

Les paramètres de date et d'heure sont définis automatiquement communiquées par votre fournisseur de services. Vous pouvez modifier ces réglages manuellement désirés.

GÉRER LES SIM

Ce processus permet la configuration de la carte SIM ainsi que l'importation des contacts de la carte SIM.

SÉLECTION WI-FI

Ce processus permet à l'appareil de se connecter à l'internet. Cliquer sur le réseau Wi-Fi désiré auquel l'appareil sera connecté. Veuillez noter que les réseaux non sécurisés peuvent être connectés directement - les réseaux sécurisés nécessitent un mot de passe comme justificatif d'identité avant d'établir la connexion. Nous vous recommandons d'être connecté à un réseau Wi-Fi pour vérifier les mises à jour

disponibles avant le démarrage.
